### **Personal Safety Equipment**

With emphasis placed on safety at the railroad, the Friends are obligated to become compliant with the adopted standards. With that comes the need to upgrade all personal protective equipment (PPE). In doing so, we realize that many of you volunteering on the railroad are using equipment that is currently **not certifiable or past its life expectancy**.

Since this change the Friends safety manual is being updated, for current safety standards, see Form R-8 on the web. It references specific types of safety equipment now mandated. Compliance is required to meet American National Safety Institute (ANSI) and the Occupational Safety and Health Administration (OSHA) standards. Equipment listed for purchase on the order sheet complies with those standards.

With that in mind, **your hard hat is out of date if manufactured in 2020 or earlier**. The Friends have undertaken the task to provide “Friends members”, with the opportunity to obtain the most up to date safety equipment at cost. The new PPE is required to be worn when working on projects at a work site or while working at the Railroad. If you have existing safety equipment that you believe may meet the current standard, please bring it in for certification by the railroad safety officer. All hard hats must have a manufacturers date embossed on the inside of the hat that attests to the standards and date of manufacture. **Hard hats 5 years from date of manufacture must be replaced.**

**How can you tell the date your hard hat was manufactured?** You will need to look for the circle calendar stamp, it is only 7/16 inch size. It is generally located on the brim of the hat. The image above is an enlargement of that “circle calendar” manufacturers’ affix to the hardhat to tell the month and year of manufacture. The two center numbers (each side of the arrow) are the year of manufacture. The arrow points to the month of the year. This hard hat example was manufactured in January of 2020.

The following are available PPE equipment selections. The descriptions are taken from the supplier's WEB site.

## Hard Hat Selection

**Item # 93005**

### **NSI Power Shell® II 4-Point Ratchet Suspension Full Brim Hard Hat**

#### **Get the power**

Lightweight, yet rugged high-density polyethylene construction provides excellent protection and comfortable wear

Comfortable, 4-point suspension with vertical height adjustment assures a personal, secure fit

Moisture-wicking, polyester brow pad helps keep sweat out of wearer's face

Design offers added protection against rain, sun, and snow

Complies with ANSI Z89.1-2009, Type I, Class E and G standards

**Item # 23189**

### **NSI Power Shell® 4-Point Ratchet Suspension Cap Hard Hat**

#### **Get the power**

Choose this feature packed hard hat for excellent protection and comfort - and keep your safety budget under control. Light weight, yet rugged polyethylene shell offers excellent head protection

Low profile hard hat design features comfortable 4-point Flex-Gear® suspension

Hats include rain trough and accessory slots for use with cap mount muffs, face shields, communication devices, and more

Soft, absorbent, replaceable cotton brow pad with cushion pillows ensures maximum comfort

Flex-Gear® ratchet suspension bends at flex points to conform to the head for added comfort

Large ratchet knob adjusts easily - with or without gloves

2 front and 2 rear height adjustments ensure a superior custom fit

Features cushion pillows where ratchet housing rests for added comfort

Replacement Flex-Gear® ratchet suspension item# [23195](#), and replacement cotton padded brow pad item# [23196](#), both sold separately

Complies with ANSI Z89.1, Type I, Class E and G standards

## Safety Glasses Selection

**Item # 184480**

**NSI N-Specs TRI-STAR**

**Crews Glasses Law® OTG Clear Anti-Fog Over-the-Glass Safety Glasses**

### **Over-the-glass eyewear at a great price**

- You'll appreciate the great features on these OTG safety glasses.
- Non-slip, thermal plastic rubber temple inserts offer comfort and grip
- Anti-fog, Duramass® coating minimizes scratching and fogging for longer wear and improved vision
- Ratcheting temples adjust to fit over most prescription eyewear
- Lightweight, nylon frame is dielectric for added safety
- Impact-resistant polycarbonate lenses provide excellent protection against UV rays
- Complies with ANSI standards

**Item # 23854**

**NSI N-Specs® Riptide® Clear Anti-Fog Lens Safety Glasses**

### **Popular for their comfort**

- Choose our popular clear, anti-fog lens eyeglasses that let workers achieve the eye protection they need – and look sporty at work.
- Polycarbonate lens provides excellent impact resistance
- Wraparound design hugs the face for protection you can count on
- Cutting edge wraparound style increases compliance
- Lightweight nylon temples adjust for comfort
- Excellent UV protection
- Manufactured in an ISO 9002 Registered facility
- Complies with ANSI standards

## 3M E-A-R Ultra Fit Corded NRR 25

Reusable Ear Plugs in Polybag

Item # 4004

### Curved triple flange design inserts easily

Patented curved flange design gently hugs the ear canal to provide an effective seal against noise.

Triple flanges are soft and flexible, and insert easily for a gentle seal every time

Reusable plugs don't need to be rolled or sized to get a comfortable, protective fit

Soft, hypoallergenic polymer is washable and reusable. Firm stem allows easier insertion

Convenient cord keeps ear plugs handy and reduces loss

NRR 25dB - 1 pair per package
