A grade crossing is a place where the railroad tracks cross a ______.

Using what you learned in the signs unit, fill in the blanks.

1. Whistle boards with an "X" tell the engineer to blow the				
whistle because the ti	rain s approachi	ng a		
·				
2. Whistle boards with a	an "S" tell the en	gineer to blow the		
whistle because the ti	rain is approach	ing a		
	·			
3. Whistle boards with a "W" tell the engineer to blow the				
whistle because the ti	rain is approach	ing a place where it is		
hard for the engineer	to	Those places		
include a	, a	, or a		
	·			
4. State line signs are pl	aced at the	places along		
the Cumbres & Toltec	Scenic Railroad	where the train		
tracks cross the line b	etween	and		

Using what you learned in the signs unit, fill in the blanks.

I. When traveling on a Cumbres & Toltec Scenic F	Railroad
train going west from Antonito, Colorado to Cha	ama, New
Mexico, the numbers on the	go
·	
2. The number on a milepost at the Cumbres & To	oltec Scenic
Railroad represents the in	
from	
3. The signs along the Cumbres & Toltec are main	tained and
when needed to match the	ne
designs originally used by	the
4. Some station signs are on the	of a
station building, while others are mounted on	
5. The Friends of the Cumbres & Toltec Scenic Rai	
installed a	in the
Yard that has examples of	
signs along the railroad.	

Using what you learned in the signs unit, fill in the blanks.

I. Engineers on the Cumbres & Toltec Scenic Railroad can				
use a	to		how long it	
takes the train to travel between two mileposts and use				
that to calcu	late the train's $_{ extsf{-}}$		·	
2. If it takes a t	rain	minute	s to travel between	
two adjacen	t mileposts, the	train has tra	veled at	
	miles p	er hour.		
3. Mileposts on the Cumbres & Toltec Scenic Railroad				
measure a lo	ocation's	fro	m	
That city was where the				
had its				
	•			
4. A one-of-a-k	kind sign at		marks the spot	
where the D	enver & Rio Gra	nde's		
		ended	1
